It is Time for Your Child's "Other Check-Up"

The Appleton Area School District encourages all children to come to one of the 3-5 year old developmental screening days to participate in a Developmental Screening prior to entering Kindergarten.

This is your child's "Other Check-Up" to make sure your child's development is on track. However, you do not need to have concerns to have your child screened. We love to see typically developing children.

"The Other Check-Up" looks at all areas of child development including:

How your child talks
How your child listens
How your child thinks
How your child moves
How your child uses his/her hands

All children between the ages of 3-5 years of age, who are not enrolled in kindergarten, and live in the Appleton Area School District can call to schedule a Developmental Screening.

To schedule an appointment for a Developmental Screening,
Please contact Carin Tijan at 920-997-1399 extension 2112.
