

FACILITIES DEVELOPMENT GOALS

As the Board seeks to maintain and improve its physical facilities, it will provide new and remodeled facilities that will offer the best possible physical environment for learning and teaching.

The Board aims specifically toward:

1. Providing new facilities and renovations that will accommodate and facilitate those new organizational and instructional patterns that support the District's educational philosophy and instructional goals.
2. Meeting all safety requirements through the updating of facilities.
3. Providing such renovations as needed to meet requirements on the accessibility of public school facilities for individuals with disabilities.
4. Approving designs and constructions that will lend themselves to low maintenance costs and the conservation of energy. These two factors will also be given special consideration in the renovation of facilities.
