

## Microsoft Go Devices

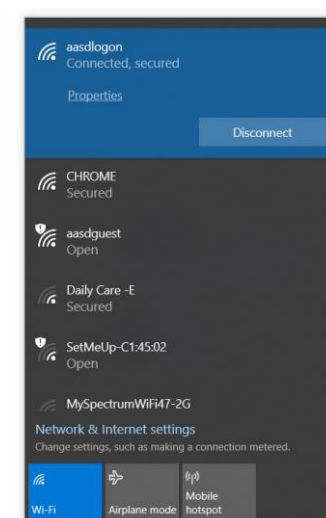

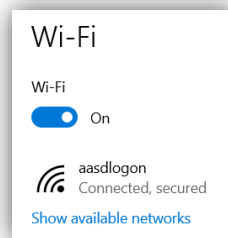

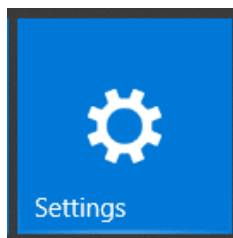

The Microsoft GO is a windows tablet with a keyboard cover and a kickstand you can pull out to stand it up at a comfortable viewing angle.

Note: You will need your student's username and password. Instructions for linking this up can be found [HERE](#)

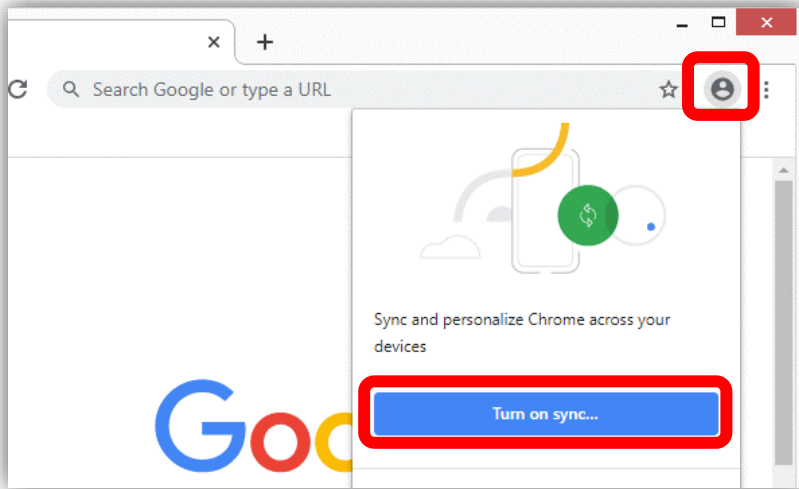

1. Power on the device by pressing the button (#1) on the side of the device. It will automatically logon in "Kiosk" mode.
  - a. If the sign in screen is asking for a password. Just hit enter with the password field left blank.
  - b. DO NOT put in the student username and password on the windows sign in screen. Leave it as Kiosk.

2. To connect to a wi-fi network, touch the windows icon (☰) in the lower left corner. Then select the Settings tile.
  - a. Click on "Show available networks".
  - b. Choose your network and enter password if applicable.

3. Google Chrome will open automatically to the Classlink sign in page.
  - a. NOTE: The first time you use the device you should sign into the Chrome Browser in the upper right-hand corner. This will be stored and not have to be done again.
    - i. To do this, click on the head and shoulders icon and “Turn on sync”.
    - ii. Sign in with district email and password.
    - iii. First time Google users will have to Accept the terms of service agreement.
    - iv. Choose to “Link Data” and “Turn on Sync”.
  - b. You will sign in with the student’s email address which is their username followed by @stu.aasd.k12.wi.us (ex. ABC123456@stu.aasd.k12.wi.us)

4. Now you can use the Home button ( ← → ↻ 🏠 ) to return to the Classlink sign in screen.
  - a. Enter the student username and password to login.
  - b. Allow the device to save the username and password.
