

I need help with school-based services.

Contact and speak with a teacher, principal, school nurse, school counselor, school social worker, or school psychologist, or other school staff regarding concerns.

School staff may discuss options within the school or refer to another service such as a physician or a community counselor or service.

Children do best when families, providers, and schools work together as a team. Parents may want to consider signing release of information forms to make sure that all current providers are aware of the concerns and referral.

Children do best when families, providers and schools work together as a team.
Parents may want to consider signing release of information forms to make sure that all current providers are aware of concerns and referral.
School-based services may also be an option.

I am concerned about my child's mental health, but it is not an emergency.
