Course Descriptions

*****When looking at grade level, use grade entering in fall.**

Cool Crafts

\$10.00

Students will be introduced to a variety of two and three-dimensional projects, including painting, drawing, and designing unique creations to decorate lockers, display at home, or give as gifts. Samples will be used to teach techniques. Emphasis is on creativity and self-expression.

Digital Explorations

\$5.00

Students will explore digital image editing, digital movie tools, website development and even some of the fundamentals of programming and network gaming. The focus of this course is developing technology literacy through experimentation while having fun and being creative. Students may also expand their editing skills and programming knowledge to create web pages, movies, and interactive 3-D environments.

English Language Arts

\$5.00

Ever want to be someone else? Ever want to explore new worlds? Ever want to try something you never thought possible? This summer, through high-interest teen literature, you'll have an adventure of a lifetime alongside your peers! This adventure will also help you dig deeper into yourself through the art of writing. Throughout the process you will unknowingly become the reader and writer you've always thought you could be. Come along for the ride!

English Language Arts for English Language Learners

\$5.00

(2 hour class)- Open to ELL students entering grades 7 and 8 who have an English language proficiency level of 1 or 2. ELL students in this class will continue to develop their oral language, vocabulary and literacy skills by engaging in a variety of high-interest texts. Students will have opportunities to read, write, share their ideas, and listen to others as they explore books and topics from all content areas.

English Language Learners Literature Exploration

\$5.00

(1 hour class)- Open to ELL students entering grades 7 and 8 who have an English language proficiency level of 3- 5. ELL students in this class will immerse themselves in a variety of high-interest texts, including poetry, literature, and informational texts that represent many perspectives. Students will dig deep into the books, exploring the stories and characters to support their written reflections and collaborative conversations.

Fab Lab

\$15.00

Come and use technology and equipment in this fun class! Students will learn how to build simple circuits and put them to practical use immediately by creating homemade alarms, build electric cars driven by DC electric motors or pulleys and a switches, build light circuits powered by batteries and controlled by a switches, and use web based software to design and create 3D models including rings, phone cases, game pieces, pendants, logos, and nametags.

Football Academy

\$5.00

Football is a great opportunity to learn, play, and improve your skills of throwing, catching, and running. Learn the basic rules while conditioning and practicing with the coaches. Scrimmaging will consist of Flag Football.

Gym & Outdoor Games

\$5.00

Gym and outdoor games such as soccer, softball, kickball, and more provide an excellent activity for coeducational play in which social skills, sportsmanship, cooperation, and team play can easily be developed. Whether you are trying out for your school team or just want to meet new friends, this course will meet your needs. Learn and practice skills, participate in friendly competition, and put your skills into game action FUN!

Hand-Sewing

\$10.00

In this creative and hands-on class, students will learn varying techniques to sew by hand. You will learn how to create functional items such as accessories, jewelry, and other small items to brighten up your wardrobe and bedroom!

Intro to Weight Training and Fitness

\$5.00

An introductory class to weight training techniques to increase muscle tone and to improve cardiovascular conditioning. This class will teach safe strength training techniques through a variety of workouts utilizing various fitness equipment. Students will gain a better understanding of their personal physical fitness levels and gain confidence in weight training skills. This class is for beginners both male and female to gain muscle tone, burn some calories, and promote a healthy life style.

Math Review and Reinforcement

\$5.00

For students who need assistance and practice with the math concepts from the prior year. Small group and individual instruction will include hands-on practice, math games, and problem solving strategies.

Pay it Forward!

\$10.00

Students will work collaboratively to research, develop, and deliver a "Pay it Forward" project for the school or the local community. With the teacher as the facilitator, students will use organizational and decision making skills to choose a cause, and develop a plan to carry out a "Pay it Forward" project. Examples include but are not limited to: a food drive, adopting the school grounds, work with Woodshop to build and paint a bench for the park, etc.

STEMania Workshop

\$10.00

Solar Vehicles! Bridges! Hovercrafts and more! Are you creative and like to design and build? If this describes you, come to join this workshop as we design, build and test out various structures and machines. This is a great way to put into practice your math, science and technology skills at all levels.

Study Skills for Middle School**\$5.00**

This class is designed for incoming seventh graders to introduce the students to the middle school environment and allow them to gain an understanding of the study skills that are necessary to be successful at the middle school level. Topics will include but not limited to: getting to know middle school and what resources will help students succeed in their classes, organization skills, general study skills, and test taking strategies. Skills will be taught through lecture and videos, while being reinforced through discussion, activities, and games.

Video Game Design**\$5.00**

Students will learn how to write, design and create their own video game using the platform Gamestar Mechanic. Students will learn the different aspects of video game design and increase their writing skills in an exciting and interactive way.

Volleyball**\$5.00**

Volleyball is an excellent activity for coeducational play in which social skills, sportsmanship, cooperation and team play can easily be developed. Whether you are trying out for your school team or just want to meet new friends-this course will meet your needs. Learn and practice skills; participate in friendly competition, and put your skills into game action FUN!

Lifetime Fitness for You- Located at East High School, North High School, and West High School FREE

Do you want to increase or tone muscle, lost weight or learn proper eating habits for a healthy lifestyle? This class will provide you with the knowledge to live a healthy lifestyle through cardiovascular conditioning, strength training and nutritional diet. This class will teach proper techniques with emphasis on improved cardiovascular conditioning, body toning and a better understanding of physical fitness and wellness. Workout and diet plans can be individualized for each student. Students can set personal goals and track their progress with the help of the instructors. This class is for the beginner, intermediate or advanced male or female student. Sign up on the first day of attendance at the site you plan to attend or print registration form at http://www.aasd.k12.wi.us/district/district_departments_contacts/standards_curriculum/summer_school/
