What makes Lincoln special?

There are many things that make Lincoln special. I will start with the most important piece of Lincoln, our students. We have students who are excited to learn, are caring, and thrive in roles when they are helping others. Our students rake leaves for our neighbors, collect

items for students and community members who are in need, and help younger students by being mentors. Another thing that makes us special is the families that we serve. Our families are engaged in the learning process (APTT) and care deeply about their children and our school.

Lastly, our staff makes us special. Many schools and organizations claim to be a family, but we are truly a family. If there is ever a need the Lincoln family will rise to the occasion and help in any way that we can. We are:

THE LINCOLN LIONS
