What makes West special?

Appleton West High School has a rich tradition of excellence dating back to 1938. Appleton West has an amazing alumni base, evidenced by its 57 members of the Appleton West Hall of Fame, including the current president of Microsoft, a former State Supreme Court Justice, and a Freedom Rider. At West, this tradition of excellence lives on every day.

Students make Appleton West

special, and a dedicated and supportive staff help our students reach their full potential.

Support for incoming freshmen includes Terror Success, where students spend time each day with teachers and upper classmen to help transition to the high school level. After proving they have the academic skills needed to succeed, freshmen earn their way out of Terror Success. At West, we

monitor our freshmen closely, and students who need additional support are returned to the Terror Success program to get back on track. Similarly, there are ample opportunities for all students to receive support before, during, or after school. One such program is referred to as "ninth hour" where students can get tutoring in the library after school.

Opportunities at West

Opportunities to succeed at West abound. Whether you need extra support or an added challenge, teachers are available during our "Flex" on a daily basis. Helping you succeed is every teacher's priority.

Student initiated clubs allow a great deal of choice in student participation—student interest drives the clubs we have. Clubs are coupled with a great fine arts program and when combined with our sports teams, we offer students plenty of opportunities to learn beyond the classroom.

Diversity is truly a strength and West. Students from a myriad of cultures attend school together

forging lasting relationships in an environment that is truly similar to the world they will inherit.

Facilities at West continue to be improved each and every year. While the charm of the late 1930's is still apparent throughout our beautiful building, modern touches such as new science labs, a state-of-the-art technology education center, and the conference's best high school track complex provide our students with great facilities while being reminded of their strong foundation.

Visitors to West are always impressed. Come see why!
