School Profile

Enrollment: 288
Grade Levels:
Kindergarten—6th Grade
Principal
Jack Knaack

Richmond Elementary serves just under 290 children in grades K-6. We are proud to say we have been nurturing student learning for over 70 years. Although honored to be labeled by the state of Wisconsin as a school that **"Exceeds Expectations"** for the last two years, we are most proud of the culture we have built and continue to build with our staff, students and families.

As soon as you enter Richmond Elementary, you will feel the caring community that has been fostered here over the years. As one of the smallest elementary schools in Appleton, we nurture relationships between students, families and staff to create a family always working together to help students grow and succeed. Whether it is working with our Parent Teacher Organization or becoming a volunteer at school, our school community embraces service to help our school. From a fall festival to a spring carnival, our school provides many opportunities to bring together the Richmond family. When asked in a survey, 98% agreed with the statement, "There is an atmosphere of respect among students and adults at Richmond." In that same survey, 99% of people agreed or strongly agreed with the statement, "Teachers work closely with family members to help students when they have problems." Richmond understands and embraces the idea that it takes an entire community to help our children to succeed.

Character Counts

Richmond has a long tradition of celebrating the six pillars of character: fairness, respect, responsibility, trustworthiness, citizenship and caring. Whether it comes through a daily announcement or a quarterly celebration, we continue to celebrate showing great character at Richmond.
