What makes Janet Berry special?

We are a school with a strong staff, supportive parents, and students who are caring and respectful of one another and achieve at a high level. Janet Berry is a school that celebrates its traditions while at the same time tries to create new traditions that focus on the development of the whole child and making their learning experiences enjoyable. Janet Berry students consistently achieve at a high level within the school setting and when compared to students in schools throughout the district and the state. Our students have always performed well and will continue to do so in the future. Janet Berry's school performance has consistently "exceeded expectations." Janet Berry students excel at the middle and high school levels because of the foundation we establish in elementary school. The Janet Berry staff works together to create a school environment where students are safe, responsible, and respectful. We recognize the great choices that our students make and we reteach those they are continuing to develop. Our students consistently display the "Bobcat Way" through their actions and their words. All of our students have unique needs. Some face many more challenges than others. We recognize and celebrate those differences and work every day to make sure all students are included in our daily school activities and are a part of the classroom family. This philosophy supports the social and emotional needs of all students and creates a school culture where empathy and support of one another continues to grow. The Janet Berry PTO has continued to support our staff and students through their leadership of parental involvement initiatives and support for special activities for our students.
