

AASD's **A Summit Challenge**

Course provides a fun, challenging, and interactive experiential learning for groups of all ages & levels of ability interested in team building, enhancing communication, problem-solving, trust skills, and building self-confidence.

Universal Accessibility for all ability levels

Offers a wide range of difficulty

Instructional sessions on technique

Belayed by trained facilitators

We will customize the experience to meet your needs!

The Challenge Course is a series of ground, low and high activities that encourage a team to work together to complete a task. The course is made up of various cables, poles, and ropes that are anywhere from one foot off of the ground to 35 feet in the air. With the help of trained facilitators, your group will be engaged in a progression. Safety on our ropes courses is our number one priority, that is why we reinforce **"challenge by choice"** on all of our activities/events.

The Challenge Course is located at Wilson Middle School between Badger St. & Mason St. in Appleton. Programming takes place seven days a week, March through November by appointment and weather permitting.

Customization Options

If your group wants to go one step further and plan an outdoor pursuit, we offer customizable programming. Some examples of programs include backpacking trips, flatwater kayaking, or mountain biking.
